

How to become member

Bilbao Bizkaia Design Council is an organisation set up by the Provincial Council of Bizkaia and the City Council of Bilbao, with the objective of promoting and fostering creativity and design as economic factors for the development of the Territory.

The BIDC Forum is focused on companies from different sectors of creative industries whose opportunities and internationalisation strategies have been analysed with the corresponding associations and clusters. Nine of these sectors: architecture, crafts, audiovisuals, communication, digital content, design, interior design, fashion and video games, are part of the organisation.

The two key elements that the Executive Committee takes into consideration are:

- 1) The sector should have its own organisation to promote cooperation projects;
- 2) The sector will be able to access international markets with its products and services.

If you wish to join us, you must have the invitation of the Executive Committee and sign the Declaration of Commitment to its goals. You may send your request to

secretariat@bidc.eus.
